Source: International Monetary Fund, International Trade in Goods by partner country, retrieved 2026-11-15. The IMF collects each economy's national customs figures and converts them to US dollars at the average exchange rate of the month the goods moved. Imports include freight and insurance; exports do not. The product and partner sections further down use BACI's reconciled figures for 2024, which can differ noticeably for the same year, so compare like with like.
