† Namibia had not yet reported this flow, so the IMF derived it from the partner's own records. Treat these as provisional.

Source: International Monetary Fund, International Trade in Goods by partner country, retrieved 2026-11-15. The IMF collects each economy's national customs figures and converts them to US dollars at the average exchange rate of the month the goods moved. Imports include freight and insurance; exports do not. The product and partner sections further down use BACI's reconciled figures for 2024, which can differ noticeably for the same year, so compare like with like.

Where Namibia's goods come from, and where they go

The five largest suppliers and the five largest markets in 2025. Ribbon width is in proportion to value within each side.

What Namibia exports, 2024

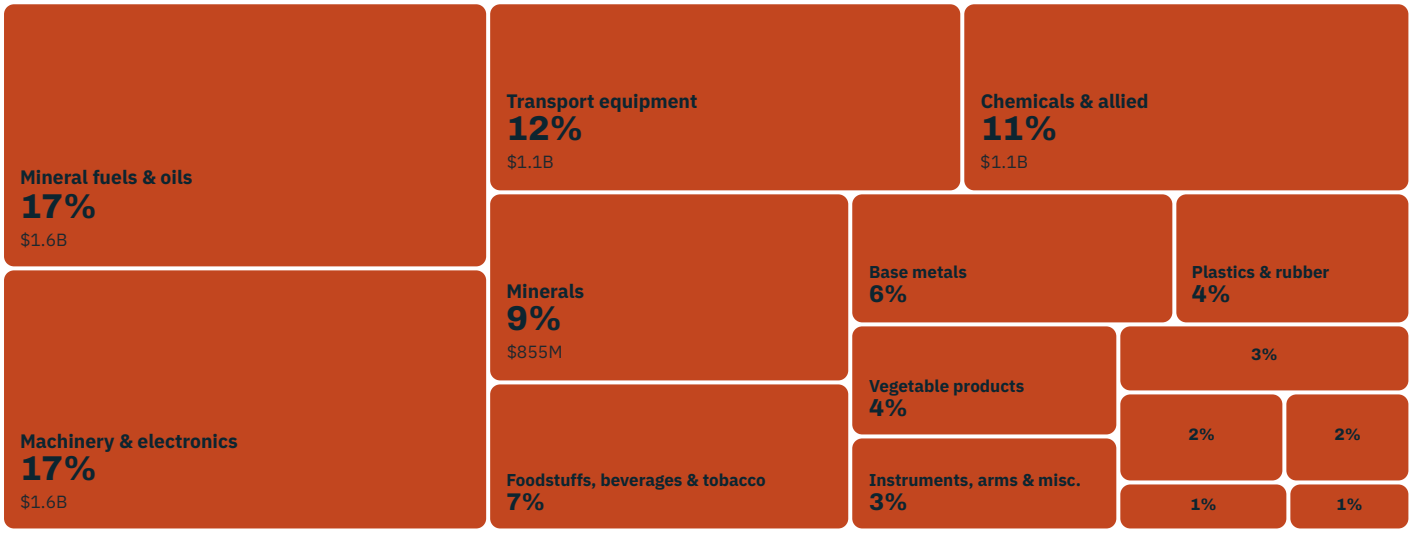

Reconciled figures (BACI): exports of $8.0B on that basis. 2024 is the newest year with product detail for every economy.
