† Chad had not yet reported this flow, so the IMF derived it from the partner's own records. Treat these as provisional.

Source: International Monetary Fund, International Trade in Goods by partner country, retrieved 2026-11-15. The IMF collects each economy's national customs figures and converts them to US dollars at the average exchange rate of the month the goods moved. Imports include freight and insurance; exports do not. The product and partner sections further down use BACI's reconciled figures for 2024, which can differ noticeably for the same year, so compare like with like.

Where Chad's goods come from, and where they go

Chad's trade over the long run

Merchandise exports and imports, World Bank series, current US dollars.

Exports Imports 2012–2023

Sources and method

- **2024 products:** BACI (CEPII), which reconciles what exporters and importers each reported to UN Comtrade, six-digit HS, current US dollars.
- **Totals and partners, latest year and current year:** International Monetary Fund, International Trade in Goods by partner country: each economy's own monthly customs figures, converted to US dollars at the average exchange rate of each month. Values marked † were derived by the IMF from partners' records because the economy had not yet reported.
- **Long-run totals:** World Bank, merchandise exports and imports, current US dollars.
- The two sources use different methods and can give different totals for the same year. Compare like with like.
- Product classification: Harmonized System, © World Customs Organization.
